5. Galley Proofed (11 July 2023)

Email from Editor

The screenshot shows a Gmail interface with a dark theme. The left sidebar contains navigation options: Compose, Inbox (2,092), Starred, Snoozed, Important, Sent, Drafts, Categories, Social (1,160), Updates (1,626), Forums (14), Promotions (1,339), More, Labels (+), Personal, and More. The main content area displays an email from galleyproofs@jrespharm.com, dated Tuesday, July 11, 2023, at 6:00 PM. The email subject is "proofreading" and is categorized as "Inbox". The email body contains the following text:

Dear Author,

Please pay attention to the notes below. Also, because you wrote the references through a program, we cannot activate the doi links. Please activate the doi links: like www.doi.com, not like www.doi.com

Please use this proof only for checking the typesetting, editing, completeness and correctness of the text, tables and figures.

- Significant changes to the article as accepted for publication will only be considered at this stage with permission from the Editor. **Please do NOT edit, change or convert the PDF file you receive; just attach sticky notes on your proofs to indicate typographic errors.**
- It is important to ensure that all corrections are sent back to us in one communication.
- Please check carefully before replying, as inclusion of any subsequent corrections cannot be guaranteed.
- Proofreading is solely the authors' responsibility.

Your submission to Journal of Research in Pharmacy now needs to be proofread by following these steps.

1. Please see the attached file.
2. Log into the journal and view PROOFING INSTRUCTIONS mentioned at Journal of Research in Pharmacy Guide for authors; <http://www.jrespharm.com/static.php?id=7>
3. Proof the galley and enter corrections (typographical and format) on pdf file.
4. Make sure that ORCID ID of the corresponding author has been written. Your article will not be published unless you indicate the ORCID ID.
5. Save and email corrections to galleyproofs@jrespharm.com within 48 HOURS

Gmail interface showing an email from jrespharm.com. The email content includes instructions for authors regarding proof corrections and ORCID info. The email is from Prof. Dr. Hatice Kubra Elcioglu, Editor-in-Chief, J. Res. Pharm.

5. Save and email corrections to galleyproofs@jrespharm.com within 48 HOURS.

6. Comments on the proofs should be returned within 48 hours of receipt to ensure timely publication of the manuscript otherwise your article's publication date will be pushed back.

7. **Displaying ORCID info for ALL AUTHORS on our title page is essential in order our journal to be covered by some indexes. Please provide ORCID numbers of all authors as per the following examples:**

Esra Tatar - <https://orcid.org/0000-0003-3490-8597>

Do not embed ORCID info into the PDF file. Please send this information in your e-mail.

Options to help you make corrections to your proofs: Your PDF proof file has been enabled so that you can edit the proof directly using Adobe Acrobat/Reader:

1. Save the file to your hard disk.
2. Check which version of Adobe Acrobat/Reader you have on your computer. You can do this by clicking on the "Help" tab, and then "About". If Adobe Reader is not installed, you can get the latest version free from <http://get.adobe.com/reader/>.
3. If you have Adobe Acrobat/Reader 10 or a later version, click on the "Comment" link at the right-hand side to view the Comments pane.
4. You can then select any text and mark it up for deletion or replacement, or insert new text as needed. Please note that these will clearly be displayed in the Comments pane and secondary annotation is not needed to draw attention to your corrections. **if you need to include new sections of text, it is also possible to add a comment to the proofs. To do this, use the Sticky Note tool in the task bar.**
5. Make sure that you save the file when you close the document before uploading it by using the "Upload File" button on the online correction form. If you have more than one file, please zip them together and then upload the zip file.

Prof. Dr. Hatice Kubra Elcioglu
Editor-in-Chief, J. Res. Pharm.

Public knowledge and attitude towards medications and dietary supplements used during COVID-19 self-isolation: a cross sectional survey in Surabaya, Indonesia

Ilil Maidatuz ZULFA¹, Silfiana Nisa PERMATASARI¹

¹Department of Pharmacy Practise, Pharmacy Academy of Surabaya, Surabaya, Indonesia

DOI : 10.29228/jrp.439

Coronavirus disease 2019 (COVID-19) has been declared a global pandemic for more than two years. People who are confirmed positive for COVID-19 or had close contact with COVID-19 patients are suggested to self-isolate to prevent the transmission. Some medications and supplements are recommended to be taken during selfisolation. The aim of the study was to investigate the public knowledge and attitude towards medications and dietary supplements used during COVID-19 self-isolation such as paracetamol, vitamin C, vitamin D, zinc, and antiretroviral favipiravir. A survey of 380 participants in Surabaya, Indonesia using a self-developed questionnaire carried out online using Google form was conducted. The results showed that most participants had good knowledge (80.3%) and a positive attitude (89.5%). Furthermore, the good public knowledge about medications and dietary supplements used in COVID- 19 self-isolation was correlated with a positive attitude ($p=0.029$). Therefore, continuous education and information campaign about medications and dietary supplements used during COVID-19 self-isolation which involving related parties is still needed.

Keywords : COVID-19; self-isolation; knowledge; attitude
