BMHP storage in the VVIP Room of RSUD dr. Soedomo Trenggalek in its storage area is in accordance with Permenkes No. 72 of 2016. The purpose of this study was to determine the description of BMHP storage procedures in the VVIP Room of RSUD dr. Soedomo Trenggalek. This research uses descriptive qualitative research methods. The sources of this research amounted to 3 people, namely 2 nurses and 1 pharmacist. Data collection methods used are based on observation, interview and documentation guidelines. Data analysis was carried out qualitatively. The results of this study indicate that BMHP storage in the VVIP room at RSUD dr. Soedomo Trenggalek has met the Permenkes No. 72/2016 standard, but the LASA marking is still not in accordance with Permenkes No. 72/2016. The conclusion of this study is that the VVIP Room of RSUD dr. Soedomo Trenggalek has not been maximized in the application of drug storage, and must improve again in facilities and infrastructure as well as the drug storage system to meet the requirements.
