

ABSTRACT

EVALUATION OF THE SUITABILITY OF STORAGE OF LASA MEDICINE IN THE OUTPATIENT PHARMACY INSTALLATION OF DR. SOEDOMO HOSPITAL TRENGGALEK

CHYTRA RIANDHINI

LASA (Look Alike Sound Alike) drugs are drugs that have similar names, looks and pronunciations and you need to be careful to avoid errors in taking the drug (Dispensing Error) by the Pharmacist. Care must be taken when storing LASA drugs to prevent errors in taking the drug (dispensing error). This study aims to determine the description of LASA drug management at RSUD dr. Soedomo Trenggalek. This research is a type of descriptive research. The aim of this research is to evaluate the suitability of storing lasa medicine in the outpatient pharmacy installation at Dr. Soedomo Trenggalek Regional Hospital. This research used observation and interview methods with some of the Pharmacy Installation staff at Dr. Soedomo, Trenggalek Regency.

Based on the research results, it can be concluded that the LASA drug storage location is in accordance with standard operating procedures (SOP), namely that LASA drugs are spaced apart from other drugs, have a LASA sticker on the drug packaging, are stored according to the dosage form and arranged alphabetically, and are stored in accordance with storage temperature. The percentage of conformity results is 80%.
